

Vermicomposting (Worm composting) Workshop*

Location: Classroom at Fresno State Horticulture Unit (NE Barstow & Chestnut)

Date: Sat. November 21, 2009

Time: 10 am to noon

Cost: \$20 (worms, worm box, and handouts)

Organized by: Student Operated Organic Farm (Organic Enterprise)

Please join our hands-on workshop and learn how to construct a simple worm-box. Class materials and additional readings are included.

Dr. Mint and her students will help you put together your own worm box to take home. The worm box will be ready-to-use! All you need to do is add kitchen waste to feed the worm. After 4-8 weeks, you will have a continuous supply of a nutrient rich compost to feed your plants.

*Space is limited, please call or email to RSVP at Tel. 559-278-2828 or spasakdee@csufresno.edu

Additional Questions, please call Dr. Sajeemas 'Mint' Pasakdee, an advisor for Student-Operated Organic Farm at Tel. 559-278-2828 or spasakdee@csufresno.edu
