Dear Friend of the Fresno State Winery,

In 2007, the Fresno State Winery celebrated its **10th Anniversary** as the only University in the nation to be licensed to produce, bottle and sell its own student-made wine. At the celebration in 2007 the many people that assisted in the creation of the Fresno State Winery were honored.

On **December 5, 2008** at 5:30pm, the Fresno State Winery will be honoring one of the visionary individuals that made the winery possible, **Dr. Carlos Muller**. In addition to being a past director of the program and professor of Enology, Dr. Muller is credited by many as being one of the individual driving forces behind making the Fresno State Winery a reality.

On December 5, we will toast Carlos's many accomplishments and will release the **10th Anniversary wine**, a special vintage of Syrah from the Fresno State Vineyards. We have also created special edition 3- and 5-liter etched bottles of the 10th Anniversary wine that we will be releasing by silent auction.

We look forward to personally thanking you for your support on December 5 as we celebrate the last ten years of success and look forward to the next ten years.

Best Regards

Dr. Robert Wampler
Chair, Department of Viticulture and Enology
Director, Viticulture and Enology Research Center

Ken Fugelsang
Winemaker, Fresno State Winery
Professor of Enology, Department of Viticulture and Enology
